**Subject:** Formaldehyde toxicology studies consistency discussion; **Ex. 6 Personal Privacy (PP)**  
**Attachments:** Tox Evidence Tables reviewed by SRC 073013.docx; Toxicological Study Evaluations suggested consistency edits AK102113.docx; studyeval092613.jpg; Formatting issues suggested resolution AK102413.docx; Tox Evidence Tables before and recommended AK.docx  
**Location:** DCRoomPYN7661-South/ORD-NCEA-DC  
**Start:** 10/28/2013 2:30:00 PM  
**End:** 10/28/2013 4:00:00 PM  
**Show Time As:** Busy

**Required Attendees:** Whalan, John; Makris, Susan; Pachkowski, Brian  
**Optional Attendees:** Glenn, Barbara

Hopefully, we can discuss the suggested edits to the study quality tables. In addition, I would like to try and get some decisions on formatting the evidence tables... I have added my suggestions and will try to adjust a table from each section to reflect these suggestions.

The jpeg is included simply as an idea for an integrated display of the quality information (I previously sent this to you)- I think this may be better off in a manuscript or similar, rather than the TR... although, with the epi "caterpillars", maybe we need something more illustrative (e.g., a "butterfly")

Due to computer issues, I wasn't able to spend as much time as I had hoped on the evidence tables, particularly the neuro and repro studies... hopefully, this is enough for Monday's discussion (which will focus on the yellow highlights in "tox evidence tables before and..." and ""Tox study evaluation..."
